

Engaging All Learners in the Mixed-Ability Classroom

Edmund Dudley

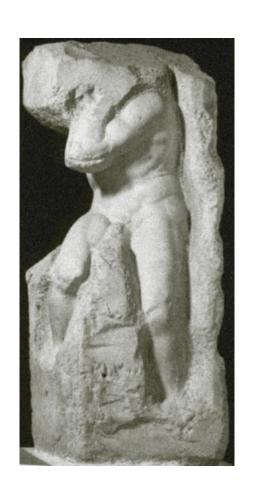

Mixed-Ability Teaching **Edmund Dudley and** Erika Osváth OXFORD

In this session

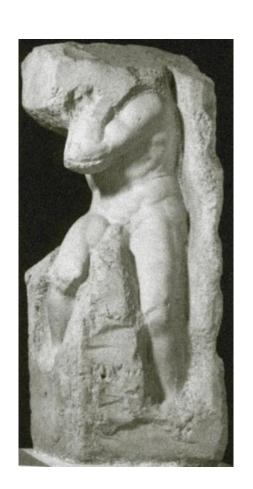

- What do we mean by mixed ability?
- Identifying variables and setting goals
- Handling materials and activities
- Approaches to differentiation
- Groups and roles:
 a positive learning environment
- A whole-person approach

In this session

Preparing for a class and managing the classroom

- What do we mean by mixed ability?
- Identifying variables and setting goals
- Handling materials and activities
- Approaches to differentiation
- Groups and roles:
 a positive learning environment
- A whole-person approach

What do we mean by *mixed-ability*?

Every learner has an individual range of levels. Every class is a mixed-level class.

Scrivener (1994/2005:69)

What do we mean by *mixed ability*?

Differences between learners

Here are four ways that learners in the same class can differ:

- language-learning ability
- language knowledge
- learning style
- attitude to the language

Is that all?
Can you think of any others?

What do we mean by *mixed ability*?

Differences between learners

- language-learning ability
- language knowledge
- learning style
- attitude to the language
- cultural background
- mother tongue
- intelligence
- world knowledge
- learning experience
- knowledge of other languages

- age or maturity
- gender
- personality
- confidence
- motivation
- interests
- independence
- self-discipline
- educational level

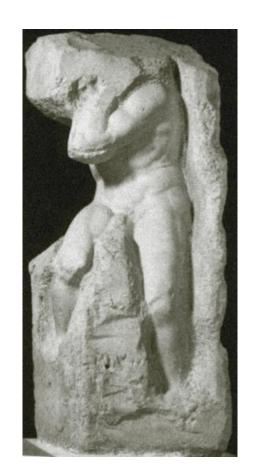

Ur (1996:304)

What do we mean by mixed ability?

"Every block of stone has a statue inside it and it is the task of the sculptor to discover it."

- Michelangelo

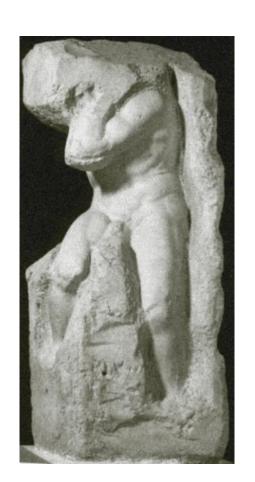

02

In this session

Preparing for a class and managing the classroom

- What do we mean by mixed ability?
- Identifying variables and setting goals
- Handling materials and activities
- Approaches to differentiation
- Groups and roles:
 a positive learning environment
- A whole-person approach

Placement tests only tell one part of the story. We also need to ask:

- Why are the students learning English?
- What specifically do they need to learn?
- What is their attitude towards learning the language?
- How do they feel about being a member of this group?
- What are their interests outside school?

Collecting data

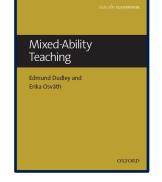

Questionnaires, surveys and worksheets

Try this 🖅	About me		
	Create a gap-fill text for students to complete about themselves. See the example below. The content and language level can be tailored to suit your students.		
	About me		
	My name is	and I'm from	
	I live in	, and in my free time I usually	
		I want to learn English because	
	I think I know a lot about		
	I'm good at	l can	I don't
	know much about	but I'd like to know n	nore. I can't
		_but I'd like to learn how.	
	People often say that I'n	n, and _	Mixed-Abilit
	In the future, I'd like to_	because	Teaching Edmund Dudley and Erika Osväth

Collecting data

Predict and observe

Try this 🖅 Teacher predictions

Invite a colleague to observe one or more of your classes. Choose two students that you would like to focus on. Write some notes about each student.

- Think about:
- attitude towards learning
- personal traits and characteristics.

Make predictions about how you think each student will respond to the activities you have planned. Write simple sentences, as in Table 1.1.

Mixed-Ability Teaching Edmund Dudley and Erika Osváth

Collecting data

Predict and observe

Maria

- 1 I think she'll talk in L1 to her neighbours during the first activity.
 Observer's comments:
- 2 I think she'll be cheerful and enthusiastic about volunteering for the speaking task.

Observer's comments:

Daniel

- 1 I think he'll copy the answers to the first activity from Luis.
 Observer's comments:
- 2 I think he'll be shy and will not volunteer for the speaking task.

Observer's comments:

Collecting data

Benefits of predict and observe

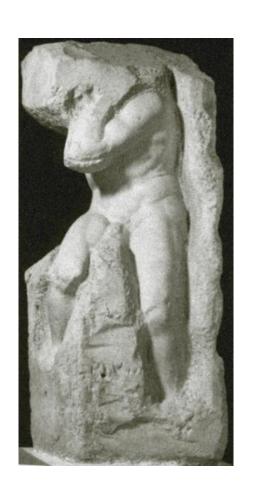

Trying not to pigeonhole

Promoting peer collaboration

In this session

Preparing for a class and managing the classroom

- What do we mean by mixed ability?
- Identifying variables and setting goals
- Handling materials and activities
- Approaches to differentiation
- Groups and roles:
 a positive learning environment
- A whole-person approach

- Where do you think this is?
- How sure are you (1-5)?
- 1: We have no idea. Let's say...
- 2: Our guess is that it's...
- 3: It looks a bit like... / It might be...
- 4: We're pretty sure it's...
- 5: That's definitely...

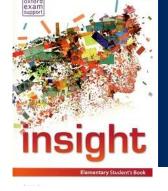

Predict the answers:

- 1. There is a lot of ____ in Montreal in the winter.
- 2. There are _____ between important buildings in the city.
- 3. ____ people use the underground every day.

12 SPEAKING Work in pairs. Plan a Music Camp. Discuss the questions. Tell the class about your Music Camp.

- When / Where is the camp?
- What instruments are there?
- Has the Music Camp got a band, a choir or an orchestra?
- What styles of music do you play?
- What is your final performance?

PROJECT • A new sport I can invent a new hybrid sport.

Read the text about the new sports and answer the questions.

- 1 Which sport is a team game?
- 2 Which sport do you play in a park or on a special course?
- 3 Which sport do you think is the most interesting?

Take two sports and put them together. What have you got? A new sport! There are a lot of these new sports - or 'hybrid sports - around the world. For example, if you're into football, why don't you try one of these?

Footvolley

Octavio de Moraes invented footvolley in 1965. He wanted to play football with his friends on Copacabana beach, but in Brazil there was a rule: no football games on the beach. So Octavio and his friends invented a new game: footvolley.

It's similar to beach volleyball, but you play it with a football and you can't use your hands! There are normally two players on a team.

2 Invent a new hybrid sport. Follow the steps in the project checklist.

PROJECT CHECKLIST

1 Choose two sports in the box.

cycling football basketball tennis swimming

- 2 Think of a name for your new hybrid sport.
- 3 Write about your sport. Include:
 - the name of the sport
 - which two sports it is a hybrid of
 - what you need
 - · where you play it
 - · rules: what you can and can't do
 - · why you think it's a great sport
- 4 Draw a picture of your sport or use a computer to make one.
- Present your new hybrid sport to your class.
- 6 Collect all the ideas for the new hybrid sports and make a class poster.

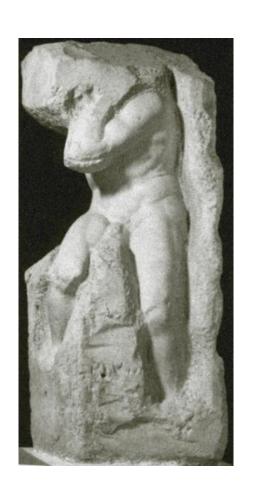

In this session

Preparing for a class and managing the classroom

- What do we mean by mixed ability?
- Identifying variables and setting goals
- Handling materials and activities
- Approaches to differentiation
- Groups and roles:
 a positive learning environment
- A whole-person approach

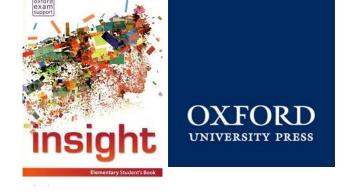

Differentiated learning

3 ways to differentiate

- Differentiating the input
- Differentiating the process
- Differentiating the output

Differentiated learning

Differentiating the input

Differentiated learning

Differentiating the input

Blue group:

Pick the correct answer from two options provided (a/b)

- 1 Shoppers with trolleys buy more because
 - a they don't have to carry things.
 - b they can see what they are buying.

Differentiated learning

Differentiating the input

Green group:

Match the questions and correct answers

- 2 Stores have everyday items at the back so that people
- **3** To find the healthy products on a shelf
- 4 Stores often play music

you have to look up.

so that shoppers stay longer. have to spend longer inside.

Differentiated learning

Differentiating the input

Yellow group:

Questions only: Find the answers yourself

5 Shoppers buy sweets at the checkout because

Differentiating the process

Barmbrack

- 1. What is it?
- 2. Which country is it from?
- 3. When do people eat it?
- 4. What does it mean if you find a bean inside your slice?

Differentiated learning

Differentiating the process

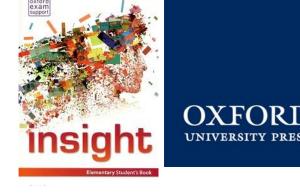

Edmund Dudley

Differentiated learning

Differentiating the process

Read the text and find the answers

People in Ireland like eating this special fruit cake at Halloween. Traditionally, there are a few surprises inside the cake. A ring in your slice of cake means true love next year, but a bean means a future without money.

Differentiated learning

Differentiating the process

Read the text and find the answers

Information gap task in pairs

People in Ireland like eating this special fruit cake at Halloween.

A ring in your slice of cake means true love next year,

Traditionally, there are a few surprises inside the cake.

a bean means a future without money.

Differentiated learning

Differentiating the process

Read the text and find the answers

Information gap task in pairs

Guess, research and compare in groups

Differentiating the process

Barmbrack

- 1. What is it?
- 2. Which country is it from?
- 3. When do people eat it?
- 4. What does it mean if you find a bean inside your slice?

Differentiated learning

Differentiating the output

- Provide options
- Allow students to choose a task
- Use open-ended prompts

You have 30 seconds.

→ Write as many different fruits as you can!

What are the strengths of this activity?

- Everyone gets a chance to contribute
- Stronger students do not dominate
- Students need to listen to one other
- Students can learn from one other

Differentiated learning Differentiating the output

- Go to the fruits and vegetables section of a market or supermarket near your home. Choose one of the following tasks:
- a.) Write down as many of the fruits and vegetables as you can in English. You can use your phone to take photographs of the display and finish the task at home.

Differentiated learning Differentiating the output

 Go to the fruits and vegetables section of a market or supermarket near your home. Choose one of the following tasks:

b.) Which fruit/vegetable is

- the most expensive

- the heaviest

- the cheapest

- the longest

- the most delicious

- the ugliest

- the most beautiful

- not from your country

Differentiated learning Differentiating the output

- Go to the fruits and vegetables section of a market or supermarket near your home. Choose one of the following tasks:
- c.) Interview the person selling the fruits and vegetables or the people buying them. Use your phone to record the interview. Translate the questions and answers into English.

Differentiated learning

FAQs

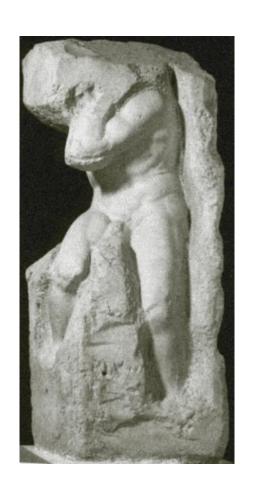

- Doesn't it take loads of time to prepare differentiated activities?
- Does it matter which part of the lesson we use differentiated activities in?
- Won't students feel that differentiation = discrimination?

In this session

Preparing for a class and managing the classroom

- What do we mean by mixed ability?
- Identifying variables and setting goals
- Handling materials and activities
- Approaches to differentiation
- Groups and roles:
 a positive learning environment
- A whole-person approach

Grouping learners within lessons

What criteria should we use?

Some possibilities:

same level together

choice of topic

different levels together

at random

Grouping learners within lessons

What techniques can we use?

- Post-it notes
- Grab the end of the string
- Lining up

Classroom management

and classroom roles

- Learner roles
- Teacher roles
- Creating a positive learning environment

Learner roles

Day-to-day involvement in...

- ...decision-making
- ...supporting the teacher
- ...providing expertise

Teacher roles

Facilitating involvement

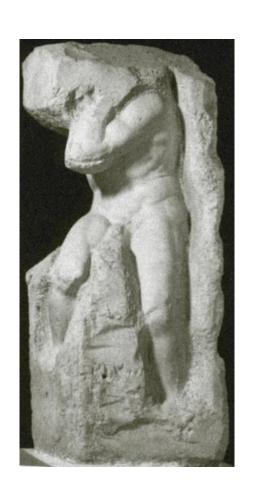

- Creating options and openings for involvement
- Promoting learning in frontal teaching

Preparing for a class and managing the classroom

- What do we mean by mixed ability?
- Identifying variables and setting goals
- Handling materials and activities
- Approaches to differentiation
- Groups and roles:
 a positive learning environment
- A whole-person approach

In this session

A wider context for learning

"It makes sense to think of the classroom as a miniature version of the world outside, in which success depends not only on gaining knowledge, but also on having social skills, values, and life skills."

Mixed-Ability Teaching **Edmund Dudley and** Erika Osváth OXFORD

Social skills

- turn-taking
- team work
- fair play
- respecting others' opinions
- willingness to compromise

> reward attitudes as well as outcomes

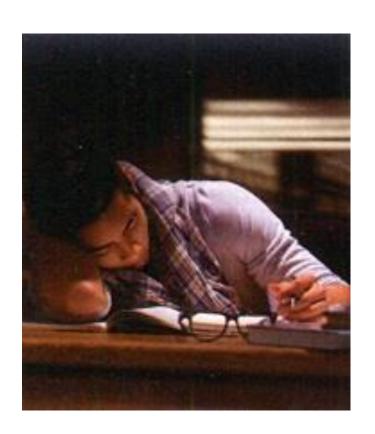

Life skills

Thinking about:

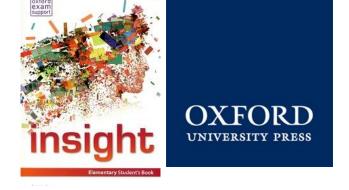

- success outside school
- life challenges

Focusing on non-cognitive skills:

- not giving up
- being brave
- seeking advice
- getting help

Using group-work and pair-work Mediation task

12 SPEAKING Work in pairs.

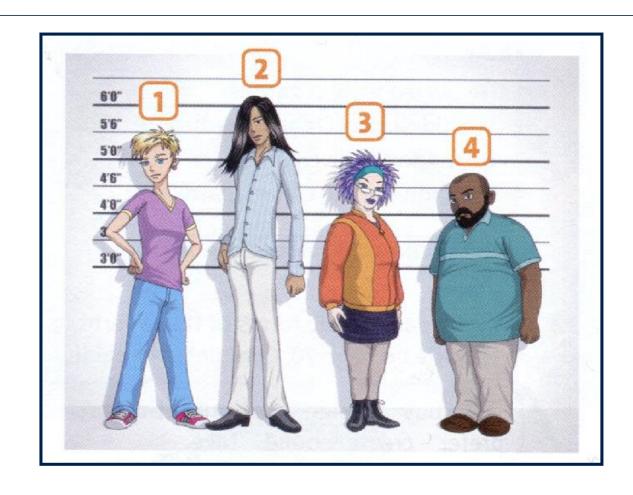

Write a dialogue between a customer and a waiter.

Use the menu

- Student A Waiter: only speaks English
- Student B Customer 1: only speaks L1
- Student C Customer 2: translates between English and L1

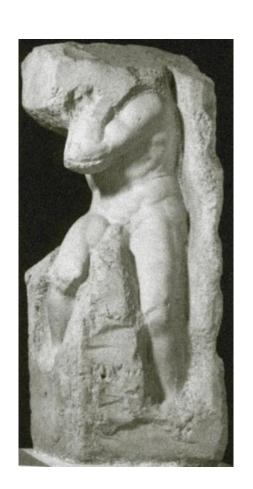

In this session

- What do we mean by mixed ability?
- Identifying variables and setting goals
- Handling materials and activities
- Approaches to differentiation
- Groups and roles:
 a positive learning environment
- A whole-person approach
